

ASPHALT CONTRACTOR CHECKLIST

Mistakes Can Be Costly...Check more than the dollar amount when you are making a decision on your next contractor.

Does your Asphalt Paving Contractor...

- Provide a Certificate of Insurance with adequate coverage and limits to protect the owner? (Liability, Automobile, Worker's Compensation)
- Have all Contractor's licenses for specified work to be performed? (State, city, county)
- Provide a current reference list with contact persons and addresses?
- Allow you to view their corporate location and crews performing at various job locations?
- Have skilled sales staff committed to offering you solutions to help maximize your construction and maintenance dollars by custom tailoring your job to your needs and budget?
- Provide detailed job proposals with options and informational literature?
- Have skilled, experienced, and uniformed crews that provide expert workmanship?
- Have specialized modern equipment, certified trained technicians, and use materials which exceed Federal specifications and are warranted by the manufacturer?
- Have "*one source*" control to perform all phases of your project with their own resources instead of several subcontractors you know nothing about?
- Have a cell phone dispatched production department to keep you up to date on your project?
- Have a complete office staff to support all of your project needs?
- Have over 25 years of experience in the full service paving business with thousands of satisfied customers?

Atlantic Southern Paving & Sealcoating can answer "YES" to ALL of these...what about the other guy?
