To Whom It May Concern:

As the Area Manager of Building Services for South Florida I cover stores from Broward County to Brevard County on the east coast, as well as Collier, Hendry, Lee and Charlotte Counties on the South West Coast. This represents 40 locations over 12,000 square miles. It is imperative that I select contractors that are reliable, put service first, and still have competitive pricing. Atlantic Southern Paving provides a wide range of services we need to maintain our store parking lots, and they do it with competitive pricing and excellent service.

The President of Atlantic Southern Paving, Michael, works directly with me on meeting our logistical needs (that vary by store) with the goal of minimal disruption to the stores and our customers. They have provided crews at odd hours to meet our project needs. Michael goes above and beyond to accommodate us and address service issues -- especially when it comes to safety issues.

It's not just a parking lot...it's the Home Depot image. That's why I chose Atlantic Southern Paving. I appreciate working with Atlantic Southern Paving and recommend them highly.

Sincerely,

Pete Papula

Area Manager Building Services, South Florida
